

THOMASTOWN PHYSIOTHERAPY

Gladys Sango

Paediatric Physiotherapist (Physiotherapy)

Gladys graduated with the Doctor of Physiotherapy from the University of Melbourne in 2019. Prior to that, she completed a Bachelor of Biomedical Science at La Trobe University in 2015.

Gladys has a passionate interest in paediatrics. She has an enthusiasm and commitment to the profession that is infectious. She is enthusiastic, down to earth and shows compassion and care to her patients that is second to none. She is always keen to improve self-efficacy in her clients, and to provide them with the best evidence-based treatments that lead to better, holistic management of their conditions.

Leisurely, Gladys is interested in most sports, particularly soccer and tennis. She also has interest in dance (from the observer's perspective!)

Dear All,

We are excited to introduce Gladys Sango, Paediatric Physiotherapist who has joined the team at Thomastown Physiotherapy. Thomastown Physiotherapy Paediatric Physiotherapists are movement specialists for babies, children and adolescents. It is a clinical area of physiotherapy that aims to improve a child's movement abilities through the use of methods such as movement training, strengthening, exercise, stretching, intensive therapy programs, adapted equipment, motor learning and play as well as education.

Thomastown Physiotherapy Paediatric physiotherapists see a wide range of conditions in the areas of musculoskeletal/orthopaedic, neurological/developmental, cardiorespiratory and psychological health.

Paediatric physiotherapists manage a broad range of conditions affecting children;

DEVELOPMENTAL:

- Co-ordination disorders (clumsiness)
- Toe Walking
- Cerebral Palsies

ORTHOPAEDIC:

- Sports Injuries
- Musculoskeletal Pain
- Scoliosis
- Ankle and Knee Pain
- Pre and Post operative (ACL, reconstruction, fractures)
- Tumours

RESPIRATORY:

- Cystic Fibrosis
- Bronchiectasis
- Acute lower and Upper Respiratory Tract Infections

Medicare rebates are available for children on a Chronic Disease Management Plan or a management plan through the National Disability Insurance Scheme (NDIS). We are committed to providing rapid solutions to current and future health needs. Our highly successful treatment strategies will help your patients achieve the best possible outcome. I would be pleased to provide you with assistance during the management of any difficult paediatric case you may encounter. We are also a Statewide Equipment Program (SWEP) 'Amber' prescriber. Please feel free to contact me directly with any questions or for a second opinion.
